11. Please see OUTDOOR FIREWORKS DISPLAY SITE CHECKLIST.

DATE APPROVED: _____

SIGNATURE OF FIRE PREVENTION OFFICER ISSUING PERMIT: _____

SITE DIAGRAM

Once a site is chosen, you need to prepare a site diagram. This does not have to be an artist's rendering, but it must clearly show the following:

1. Shooting Location:
2. Distance from firing site to:
 - A. Spectators
 - B. Parking
 - C. Residences
 - D. Commercial Buildings

Example
Largest shell size - 6"

X
Firing Location

In accordance with NFPA 1123, we will review the shooting site that you have selected for your fireworks display. Specifically, we will look to ensure that proper safety distances are being met, that the firing site is cleared, and that the area can be secured. After reviewing the site, we will contact you with any recommendations we feel are necessary to ensure a safe show.

On the day of the display, a final inspection must be made by the fire department with the operator to insure that all requirements of NFPA 1123 have been met. The Frankfort Fire Protection District reserves the right to inspect the site or any aspects of the display at any time.
